Fractions

Decimals

Topic & Science

Rocks & Fossils – Observe simple appearance and physical properties. Know that soil is made from rocks. Understand, in simple terms, how fossils are formed.

States of Matter – Compare and group materials. Observe how materials change when heated. Ice. Explain evaporation and condensation.

Habitats - Recognise that environments can change and that this can sometimes pose dangers to living things.

Extreme Earth – weather, volcanoes, climate, extreme regions around the world, and extreme animals in their habitat.

PSHE

We will focus on two of the school values community and challenge. We will also be thinking about our community and British values.

OTHER: Geography - looking at regions of extreme temperature. Location of continents. Identification of countries – linking to Winter Olympics.

PE: Dance, Invasion Games and Orienteering.

Computing: PowerPoint, touch typing and e-safety.
